G

Our company DNA

Our vision

Green & livable cities with clean air, comfortable climate & high recreational value – **for today's & future generations**.

Our mission

Enabling green & livable cities providing a healthy environment for all people & nature.

Our value

Green & livable cities where **people** simply love living.

Our core values

The greenpass livable cities team was founded in June 2018 to enable livable cities all over the world. We are an innovative ClimateTech company based in Vienna - one of the greenest & most livable cities in the world.

As team we follow a clear vision, mission & values for a successfull collaboration & fruitful development. Our slogan BE GREEN summarizes our five core values within the livable cities team inspired by nature:

- Growth
- Respect
- Enthusiasm
- Environment
- Nature

Core values

To enable livable cities

To transform our cities from grey to green

To set the global standard for climate resilience

Our team principles

Additionally to the core values, the following ten team principles have been defined & shall be considered by the livable cities team members in the every day life:

- Collaboration
- Trust
- Digital
- Innovation
- Consciousness
- Compliance
- Transparency
- Respect
- Agility
- Open Error

10

Team principles

Point your colleagues pleasant towards the team principles, if you do not feel the application of the principles by your opposite.

'We shape our buildings; thereafter they shape us'
