

An aerial photograph of a city, likely Vienna, showing a dense urban area with various buildings and a prominent spire. The foreground is dominated by lush green trees and a vineyard. A white rounded rectangle is overlaid on the right side of the image, containing the 'greenpass' logo and tagline. The bottom of the white rectangle has a green gradient bar.

greenpass 

enabling livable cities

We are a highly innovative ClimateTech company that enables livable cities around the world. Our headquarter office is in Vienna - for years the greenest & most livable city in the world.

Environmental Impact Kit

A modular kit with 6 unique environment checks

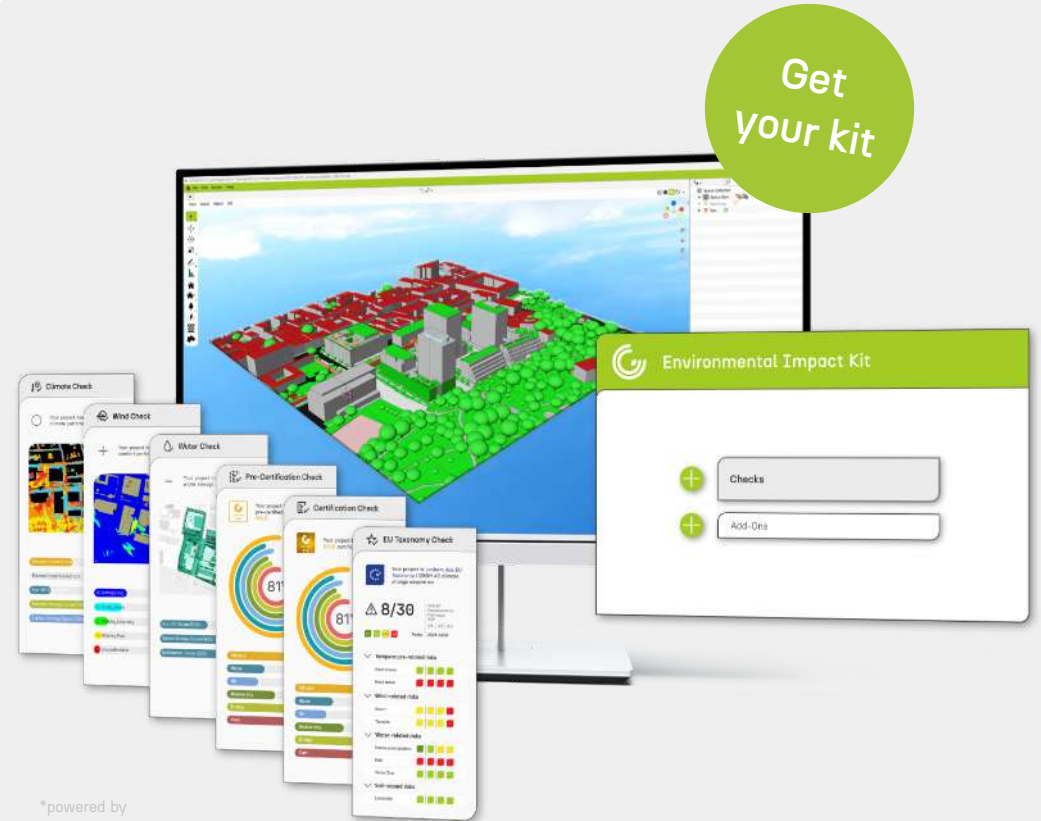

Comprehensive & fact-based environmental checks for buildings & open spaces

Digital twin as a single source of truth (SSOT) for expert simulations & scenario

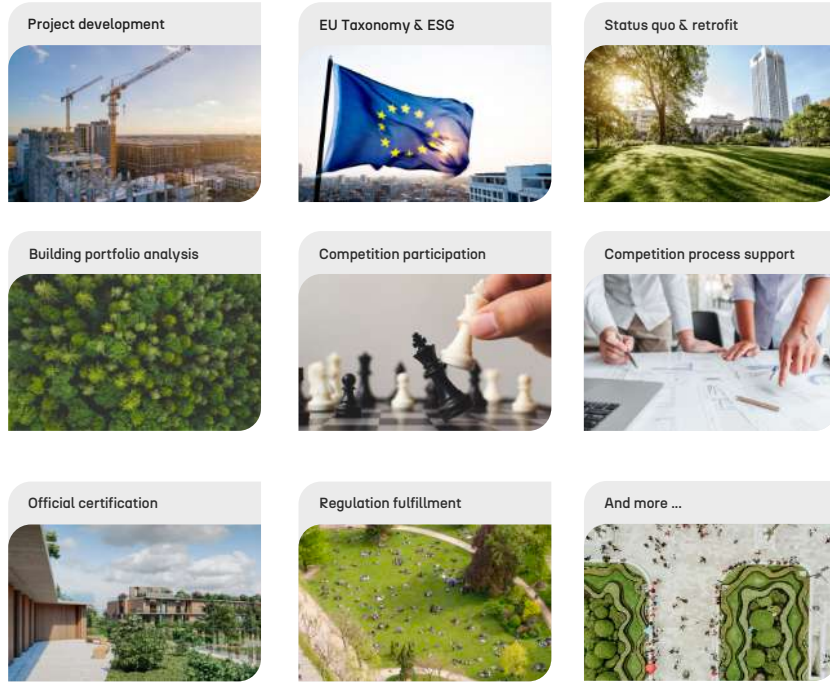

Scientific KPIs & effective measures for cost/benefit optimization & successful climate change adaptation

*powered by

ENVI
_MET

A kit for all your requirements & situations

International certification standard for climate resilience

Can be combined with other sustainability certifications such as LEED, BREEAM, DGNB/ÖGNI, klima:aktiv and many more.

‘The urban Ikea furniture store at Westbahnhof is a flagship project in terms of sustainability & we are delighted that this has now been officially confirmed by the greenpass Platinum certificate.’

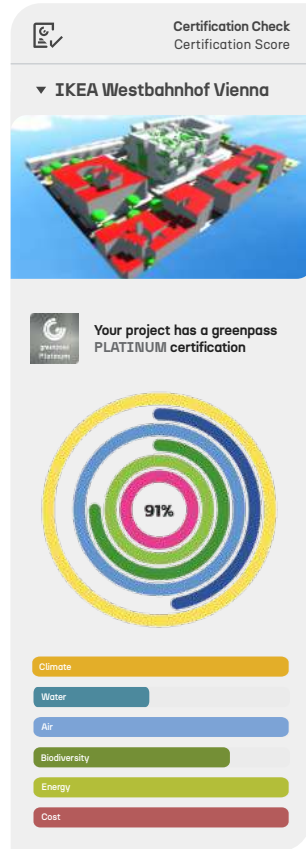

Alpaslan Deliloglu
CEO IKEA Austria

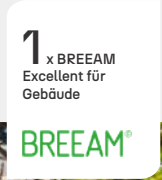

A vertical park with 160 trees

The world's first greenpass platinum-certified building with its 160 trees cools the area around Vienna's Westbahnhof by up to 1.5 °C on hot days.

VIENNA

IKEA Westbahnhof

urban cooling by up to

-1,5°C

Benefits
